

Version 1 - Original (referencia)

Esta version corre el codigo EXACTAMENTE como esta publicado en el repositorio original (upstream), sin ningun arreglo, sobre el runtime de su era (PHP 5.6). Su proposito es servir de punto de comparacion honesto para la modernizacion.

Acceso

- URL: `http://2.25.233.216:8101/` (usuario SIIS / clave Dusoft.2026)
- Stack: PHP 5.6 + Apache, contra la misma base de datos PostgreSQL 18 compartida.

La pagina de ingreso carga y presenta el formulario de autenticacion:

Deprecated: setlocale(): Passing locale category name as string is deprecated. Use the LC_* -constants instead in /var/www/html/includes/defines.inc.php on line 21
Deprecated: Assigning the return value of new by reference is deprecated in /var/www/html/classes/adodb/adodb.inc.php on line 893
Deprecated: setlocale(): Passing locale category name as string is deprecated. Use the LC_* -constants instead in /var/www/html/includes/defines.inc.php on line 21
Deprecated: Assigning the return value of new by reference is deprecated in /var/www/html/classes/adodb/adodb.inc.php on line 893
Deprecated: Assigning the return value of new by reference is deprecated in /var/www/html/classes/adodb/adodb.inc.php on line 1918
Deprecated: Assigning the return value of new by reference is deprecated in /var/www/html/classes/adodb/adodb.inc.php on line 1990
Deprecated: Function split() is deprecated in /var/www/html/classes/adodb/drivers/adodb-postgres64.inc.php on line 658

 PRUEBAS DUSOFT

Deprecated: setlocale(): Passing locale
Deprecated: Function call_user_method_array() is deprecated in /var/www/html/classes/modules/modules.class.php on line 235
Fatal error: Cannot access empty property in /var/www/html/classes/modules/modules.class.php on line 122

Login de la version original (carga correctamente)

Sin embargo, al ingresar con credenciales validas y datos reales, la ejecucion de cualquier modulo termina en un error fatal del framework:

Fatal error: Cannot access empty property
classes/modules/modules.class.php linea 122

Deprecated: setlocale(): Passing locale category name as string is deprecated. Use the LC_* -constants instead in /var/www/html/includes/defines.inc.php on line 21

Deprecated: Assigning the return value of new by reference is deprecated in /var/www/html/classes/adodb/adodb.inc.php on line 893

Fatal error: Cannot access empty property in /var/www/html/classes/modules/modules.class.php on line 122

Estado tras intentar operar con datos reales

Por que importa

Este comportamiento demuestra que el codigo publicado tiene bugs del framework introducidos en 2019 (variables de respaldo y despachador de modulos) que impiden la operacion con datos reales. Es la evidencia base que justifica la Fase 1 de la modernizacion: los arreglos aplicados en la version actualizada corrigen exactamente estos puntos, de forma retro-compatible.
